

HELIOS SALOPETTE ETF 1904 OR

Ultimate Waterproof ARC Welding Protection to Class 3 Hi-Vis/RIS-3279-TOM & Class 4 breathability. Tested to Class 2 for welding protection.

Utilising the innovative fabrics and manufacturing processes the Helios Waterproof Arc salopette provides the wearer with high performance and greater comfort.

This super lightweight solution gives the wearer the option to layer up with additional Eagle ARC FR layers in the winter or wear over a single layer in the warmer climates.

***Compatible with 'ETF1903OR Helios ARC jacket'*

eagle^{ARC}
APT_V 24.1 Cal/cm²

Composition

40% Modacrylic/59% FR Viscose
